

TUSCOLA COUNTY

COMMERCIAL SURETY BONDS

Commercial projects will require a surety bond in order to guarantee compliance to Part 91 of Act 451. When the project is completed, all temporary control measures removed, all permanent measures in place, and the final inspection approved, the site will enter a one (1) year maintenance period. If, after this period, the site remains in compliance with Part 91 the surety bond will be released upon approval of the bond release inspection.

The bond shall be made payable to Tuscola County and may be in the form of a surety bond, and irrevocable bank letter of credit, a certified check or cash. Bond payment shall be made at the Tuscola County Treasurers Office where a receipt of deposit will be issued. No commercial Soil Erosion and Sedimentation Control (SESC) permits will be issued without this bond receipt.

The fee schedule is as follows:

Projects with an estimated cost of less than \$200,000.00
10% of estimated cost with a \$4500.00 per acre minimum

Projects with an estimated cost of more than \$200,000.00
5% of estimated cost with a \$4500.00 per acre minimum
